

ERMAK+

Firefighting backpack

ERMAK+

The firefighting backpack ERMAK+ serves for fighting of small fires, blazing of forest undergrowth and as equipment of patrols after fire liquidation or during burning the brushwood following the forest exploitation. It is a suitable equipment of fire tankers, off-road vehicles during visual inspections of forest grounds in dry months or as prevention the combine harvesters during harvests.

The firefighting backpack ERMAK+ is designed and manufactured without compromises. In its design we put all our experiences we have gained from the development of our firefighting backpacks Ermak series which is on the market since 2014 and is used by professional firefighters and volunteers in the Czech Republic, many countries in EU and beyond its borders. **The firefighting backpack ERMAK+ is designed in Czech Republic, manufactured in our workshop and by our hands!**

The firefighting backpack ERMAK+ is highest version of our all series of firefighting backpacks. Special emphasis has been placed on **extra comfort and endurance**. The base is two-layer design with outer **extra robust Cordura®** fabric in great visible black-yellow color which protects inner layer - a water carrier. The comfort is guaranteed with a double dorsal pad which is placed between these layers. The complete harness system.

Double action handheld pump offers simple design and very light stroke. The handheld pump is equipped with **spraying extension** for regulation of flow. It is also possible **to use foam** with this extension. Two layer 3D design with outer extra robust Cordura® fabric in great visible black-yellow color. Inner layer made of fabric coated by PVC. **The double soft dorsal pad** guarantees comfort and protects yours back against the cold water. **Comfortable harness system** guarantees comfort and offers wide range of settings for yours backs. Harness system is consists of fully adjustable wide shoulder, waist and sternum straps. **The large cap** enables easy filling of water without removing. The cap is permanently attached to the backpack. **The big plastic handle** for easy handling with filled backpack. **The big storage pocket** and holders for handheld pump or other tools.
