ERMAK

The firefighting backpack ERMAK serves for fighting of small fires, blazing of forest undergrowth and as equipment of patrols after fire liquidation or during burning the brushwood following the forest exploitation. It is a suitable equipment of fire tankers, off-road vehicles during visual inspections of forest grounds in dry months or as prevention the combine harvesters during harvests.

The firefighting backpack ERMAK is designed and manufactured without compromises. In its design, we put all our experiences we have gained from the development of our first model of firefighting backpack Ermak 20 which is on the market since 2004 and is used by professional firefighters and volunteers in the Czech Republic, many countries in EU and beyond its borders. **The firefighting backpack ERMAK is designed in Czech Republic, manufactured in our workshop and by our hands.**

The firefighting backpack ERMAK is second highest version of our all series of firefighting backpacks. When designing of ERMAK, special emphasis has been placed on **the quality, practical features and mainly comfort**. The base is **double-layer design** with outer robust layer which protects inner layer - a water carrier. The comfort is guaranteed with a double dorsal pad which is placed between these layers.

Double action handheld pump offers simple design and very light stroke. The handheld pump is equipped with **spraying extension** for regulation of flow. It is also possible **to use foam** with this extension. **Two layer 3D design** with **robust waterproof outer layer** in great visible yellow color. Inner layer made of fabric coated by PVC. **The double dorsal pad** guarantees comfort and protects your back against the cold water. **The comfortable harness system** guarantees comfort and offers wide range of settings for your back. The harness system consists of fully adjustable wide shoulder, waist and sternum straps. **The large cap** enables easy filling of water without removing. **The big plastic handle** for easy handling with filled backpack. The big **storage pocket** with holders for handheld pump or other tools.

Specification

	ERMAK 16	ERMAK 20	ERMAK 25
